Construction begins Tuesday on US 83 north of Minot

Construction will begin Tuesday, May 31, on US-83 north of Minot, from 83rd St. NW to Glenburn Rd. Construction will consist of widening the northbound shoulders, adding right turns lanes at the Glenburn Rd. intersection and the 80th St. NW intersection and a through lane at the 83rd St. NW intersection as well as culvert work. Motorists traveling through the construction zone are asked to use caution when making right turns between Glenburn and Lansford onto US-83 due to the presence of machinery on the shoulders of the roadway.

During construction:

- Speeds will be reduced to 55 mph through the construction zone
- Flaggers will be present

The projects are expected to be completed by early July.
